Balanced Living

Keeping Your Spirit Healthy
People talk about the importance of keeping their lives in balance. But when it comes down to it, few people really know how to achieve it.

Mental Health Awareness
According to the National Institute of Health, mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act as we cope with life. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important because it helps us to be physically healthy, build and have good relationships, and work productively.

**May is Mental Health Awareness Month**

*You Are Not Alone*

- **1 in 5** U.S. adults experience mental illness each year
- **1 in 25** U.S. adults experience serious mental illness each year
- **1 in 6** U.S. youth aged 6-17 experience a mental health disorder each year
- **50%** of all lifetime mental illness begins by age 14, and 75% by age 24
- Suicide is the **2nd leading** cause of death among people aged 10-34

**May is Mental Health Awareness Month.** Trying to tell the difference between what expected behaviors are and what might be the signs of a mental health condition isn't always easy, but identifying a problem early can help lead to the best outcome.

Preparedness & Response

Safe Havens in a Storm
Taking shelter is critical in times of disaster. You need to identify safe locations during severe weather – whether at home, work or some other location.

Coronavirus | COVID19
While communities continue to work to contain the spread of coronavirus disease 2019 (COVID-19), many parts of the United States are beginning to ease restrictions, reopen some businesses, and prepare to revitalize the economic downturn that has impacted so many lives. While no one can predict what will happen in the coming weeks and months, the effort to return some sense of normalcy to America is moving forward with both optimism and caution.

It’s important to remember that a pandemic is controlled by the pace of the spread of a disease. Even as America begins to see some communities reopen, the nation is operating on COVID-19’s timeline, and it is still very active across the country. This means that some restrictions will remain in place and the potential for a second wave of infections remains present. Doing your part to help your community means abiding by the guidelines set by state and local governments and following the recommendations of medical professionals.

In our special resource section, you’ll learn about coronaviruses, find resources related to the current spread of the illness, and discover the steps you should take to prepare your family for the daily living challenges that may arise as the virus spreads to your local community. From caring for children in isolation and adjusting to remote work from home to how to properly seek medical attention to treat the illness, these resources will help you take charge of your situation.
